ABOUT US

The world develops in many ways and many new technologies come. But if there is any item whose demand has not gone down, it is the bicycle. Because it is used by children from 5 years old to 60 years old.

In the United States, everyone travels by bicycle because it improves health, reduces pollution, saves money, and many other uses. So with the main intention of making money along with the health of every person in India, Kavaci Study Bike offers you an amazing business plan
